

Jun Advanced Class information 2024

General:

Students start to perform in competitions from this age and may be invited to participate in a performance troupe and solos on top of their usual classes. There is a discounted sliding scale built into the tuition fees allowing students to be able to do more classes at a discounted rate, as they start to train multiple hours from this age. Our recommendation is a min training of 5hrs to establish strong technique, but our class schedule allows for a more personalised selection.

Classical Ballet:

Students are offered 1 x 60min and 1 x 75min class per week and will sit the SFD level 3 exam this year. Exams are only offered to students participating in 2 classes per week. There will be the main exam/concert class, and the technique class which will support the students with extra ballet technique necessary. The repetition of recruiting & engaging the specific muscles twice per week is required to establish sound classical training. If students only wish to do 1 ballet class, they should attend the Technique class. One concert item will be offered to students attending both classes.

Jazz:

Students are offered 1 x 45min jazz class per week and will sit level SFD 3 Jazz exam this year. There will be one concert dance allocated to Jazz students.

Tap:

Students are offered 1 x 45min class per week. Students will sit the level 3 SFD Tap exam this year. There will be one concert dance allocated to Tap students.

Acro:

Students are offered 1 x 30min class of a combination of acro, stretch & core strengthening. This class is essential for competitive dancers & those wanting to take their dancing to the next level. There are NO concert dances allocated.

Hip Hop:

Students are offered 1 x 45min class p/w. This is a fun open style class with all the latest funky moves. Hip hop is a complementary style to enhance jazz presentation. There will be one concert dance allocated to Hip Hop
