

Junior Class information 2024

General:

Students start to perform in competitions from this age and may be invited to participate in a performance troupe and solos on top of their usual classes. There is a discounted sliding scale built into the tuition fees allowing students to be able to do more classes at a discounted rate, as they start to train multiple hours from this age. Our recommendation is a min training of 4hrs to establish strong technique, but our class schedule allows for a more personalised selection.

Classical Ballet:

Students are offered 1 x 1 hour & 1 x 45mins classes per week and will sit the SFD level 2 exam this year. Exams are only offered to students participating in 2 classes per week. There will be the main exam/concert class, and the technique class which will support the students with extra ballet technique necessary. The repetition of recruiting & engaging specific muscles twice per week is required to establish sound classical training. If students only wish to do 1 ballet class, they should attend the Saturday Technique class only. One concert item will be offered to students attending both classes.

Jazz:

Students are offered 1 x 45min jazz class per week. Students will sit the level 2 SFD Jazz exam this year. There will be one concert dance allocated to jazz students.

Tap:

Students are offered 1 x 45min class per week. Students will sit the level 2 SFD Jazz exam this year. There will be one concert dance allocated to Tap students.
